she had been deserted by her husband and that he had associated with other women.

Trial of the claim against the Board of Education by the Vogelsang Bros. Construction Co., was started yesterday afternoon. No testimony was heard in the case, which will be concluded today. The construction company asks judgment for payment of a boiler and reconstruction of the Lincoln School and also for payment of damage suffered during the construction of the high school building.

The \$10,000 damage suit filed by Mrs. Loise Demottiers against John R. Parmenter, was sent to Ste. Genevieve on a change of venue yesterday. Judge Edward D. Hays acting as counsel for the defendant asked that the change be granted on the grounds that Parmenter could not obtain a fair trial because of the strong prejudice against Parmenter in the entire county.

Mrs. Demottiers asks judgment alleging that Parmenter, who shot and killed her husband last October, deprived her and her children of all support. Parmenter is now under a 18 year sentence, having been convicted of murder in the second degree. He has made an appeal to the supreme court.

F. M. Norman, of Dexter, member of the Missouri Legislature from Stoddard County, was married in Jefferson City Tuesday to Mrs. Margaret L. Ward, of that city. The bride has been employed in the State Department for several years.

During the last session of the Legislature, Mr. Norman met Mrs. Ward and the romance began. When the lawmakers departed for their homes at the conclusion of the session, the Stoddard County representative lingered to say good bye to friends. He promised to return to the capital before the next session convened and he did. He made several trips to Jefferson City, and several months ago close friends of the bride learned that she was engaged to Mr. Norman.

After a brief honeymoon, Representative Norman and his bride will return to Dexter, where they will go to housekeeping.

Norman was elected to the State Legislature in 1914 and is now serving his second consecutive term as representative of Stoddard County. He received his education at the Cape Normal. He has been a farmer and stock raiser, and also conducted a moment business in Dexter, his home town.

His marriage with Miss Ward is his second. He was married the first time to Miss Belle Moore in Dexter in January 1897. He is a Democrat.

M'ALLISTER SCORED IN PRISON PROBE CASE

Attorney General Blamed For Defect in Indictments by Judge Slate.

Jefferson City, Mo., March 5.—Defending his refusal to reconvene the special grand jury last November to cure defects in indictments previously returned in the State Penitentiary cement cases, Judge John G. Slate of the Cole County Circuit Court sharply criticised Attorney General Frank W. McAllister while giving instructions to a new Cole county grand jury.

Slate asserted if the "legal department of the state could not properly prepare these indictments in nine weeks, little if any improvement could be hoped for in one-half day's time with a grand jury."

The indictments were prepared by one of McAllister's assistants. When it was discovered they were defective, the special grand jury had concluded its work had gone home, but had not adjourned. McAllister requested Judge Slate to reconvene the members of the grand jury to cure the defects in the indictments.

Attorney General McAllister said tonight:

"This makes twice Judge Slate has called attention to the ignorance of the attorney general's office.

"In his speech to the jury he overlooks the law and recent opinion of the Supreme Court holding that the attorney general was not in charge of the Cole County cases, but was only assisting."

"We are trying to do what the prosecuting attorney had failed to do."

How many stars in your service flag?

Your men are being called to the colors. And others, who might have taken their places, are also going "over there." BUT THE WORK MUST GO ON. YOUR BUSINESS MUST BE KEPT INTACT.

More carefully than ever must you work out its highest productiveness at the most economical cost.

But—how are you going to get along without these men?

Let Electricity do their work

Dollar for dollar, it will replace your man-power, increase the quantity and improve the quality of output and reduce supervision to the minimum.

Electricity furnishes the nearest to ideal power known to modern engineering: Most flexible—Directly applicable—Most responsive—Most efficient.

It represents maximum service instantly and continuously—at the snap of the switch. Put your business on the same basis that thousands of others have adopted.

We have nothing to recommend until your proposition is carefully worked out. This costs you nothing and adds not a cent of cost to whatever equipment you may need.

Crowd Jeers Former State Secretary, When He Attempts To Make Speech.

Toronto, March 1.—William Jennings Bryan was refused a hearing when he appeared at Massey Hall here tonight to address a prohibition meeting under the auspices of the Dominion Alliance.

Returned soldiers caused the disturbance by shouting various epithets, "What about the Lusitania?" they also demanded in chorus.

The first disturbance came before Bryan's entry, when the chairman told the audience they were to be honored by listening to the fraternal delegate of the Antislavery League of America, "one of the foremost citizens of our ally."

The chairman refrained from mentioning Bryan's name as long as he could, but when it came out at last it was greeted by a chorus of catcalls and cries, "We don't want him." The chairman appealed to the audience. It was not a good thing for the city, he said, and "a bad thing for the cause we represent."

Then Bryan came in and pandemonium broke loose. Most of the audience stood up, waved handkerchiefs and cheered him, but the answering hoots from the gallery outlasted the cheers.

For five minutes Bryan tried to make himself heard, but it was of no use. The interrupters sang "Rule Britannia." Interruption kept right on, and the disturbers forced the audience to join in that and "God Save the King."

MRS. BRUNE TO BE BURIED HERE TODAY

Former Resident of Cape Dies in St. Louis—Funeral This Afternoon.

The funeral of Mrs. Caroline Brune who died Wednesday in St. Louis, will be held in the Cape this afternoon under the direction of the Walther Bros. Undertaking Co. The body will arrive on the afternoon train and will be taken to the Trinity Lutheran Church, where services will be said by Rev. A. Wilder at 1:30 o'clock. The body will be buried in Lormier Cemetery.

Mrs. Brune, formerly a resident of the Cape, visited here about seven weeks ago, when she attended the funeral of her son, Theodore Brune, who died in St. Louis. It is believed that the death of her son hastened her demise, as she has been in failing health since.

Mrs. Brune and her family moved to St. Louis about 25 years ago, but during that time all have frequently visited their friends and relatives in this city. Mrs. Brune was raised in this city, one of a pioneer family of the Cape. Three of her children, Henry Brune, a blacksmith, Mrs. Hanebrink, who resides on the Bend road, and Mrs. Alford, who lives in Marble City Heights, remained here, when the family moved to St. Louis. All children, excepting Henry, were at her bedside, when she expired. Her son had been called to St. Louis, when she became critically ill, but returned home, when she began to show signs of improvement. He was advised of her death Wednesday and immediately began to arrange for the funeral.
